- In 1997, more than 1 million patients were treated with acupuncture. In 2007, according to the National Health Interview Survey (NHIS), about 3.1 million U.S. adults had used acupuncture in the previous year. Acupuncture visits tripled in ten years! This trend continues...
WHAT is Chinese Medicine?

- Everything in the universe can be divided into **YIN** and **YANG**

- Blood is Yin. Qi is Yang.
  - “Qi is energy on the verge of becoming matter, and matter on the verge of becoming energy.” – Harvard Researcher, Ted Kaptchuck

- Health is defined as a balance of these vital substances
HOW Does it Work?

- 12 Acupuncture Channels/Meridians: LU, LI, ST, SP, HT, SI, UB, KD, PC, SJ, GB, LV.
- Acupuncture initiates Movement and Self Healing
- Treatments allow the body to return to its normal, balanced state
- Example: Pain Management
