Do you have challenges with food?

We are conducting a study that provides a **free** single-session smartphone app-based treatment for students with problematic eating behaviors.

Scan the QR code to complete an initial 5-minute screening survey.

You may be eligible if you are:

- 18+ years old
- KU student
- Have access to a smartphone

What you can expect:

- Use a mobile app to complete a free single self-help lesson
- Complete an initial, one-week, four-week . three-month, and six-month survey
- Get compensated for your time
